## **☐ ecological excursions**

**every year to the Natural Park in the mountains of the Sumava Range**

**the students have a special programme and get the information about water, woods and animals in the mountains**

**the basic task – to help our nature**

# PLANT YOUR TREE

# THE MESSAGE FOR THE FUTURE

# THE GARDENERS

# THE RIVER VLTAVA BASIN

## Students at the central office

# **PROJECT COMENIUS - WATER**

**☐ the excursion – 15 students**

**• the students were informed about the quality of water in Pilsen Region**

**• the quality of drinking water is very good**

**• buying bottled water is a waste of money**

**• the students wanted to know some details about the water in the lakes in Pilsen**

**• the author of the project is RNDr J. Duras**

# NATURE SURROUNDINGS

# **BOLEVEC PONDS**

- there are lots of woods and ponds to the north of the city**
- the system of 14 Bolevec Ponds was started in the Middle Ages in the 15<sup>th</sup> century**
- the ponds are often used for swimming, water sports and recreation**
- people working on the project have been trying to improve the quality of water in the ponds**

# STUDENTS AT THE MARKET

# QUESTIONNAIRE EVALUATION

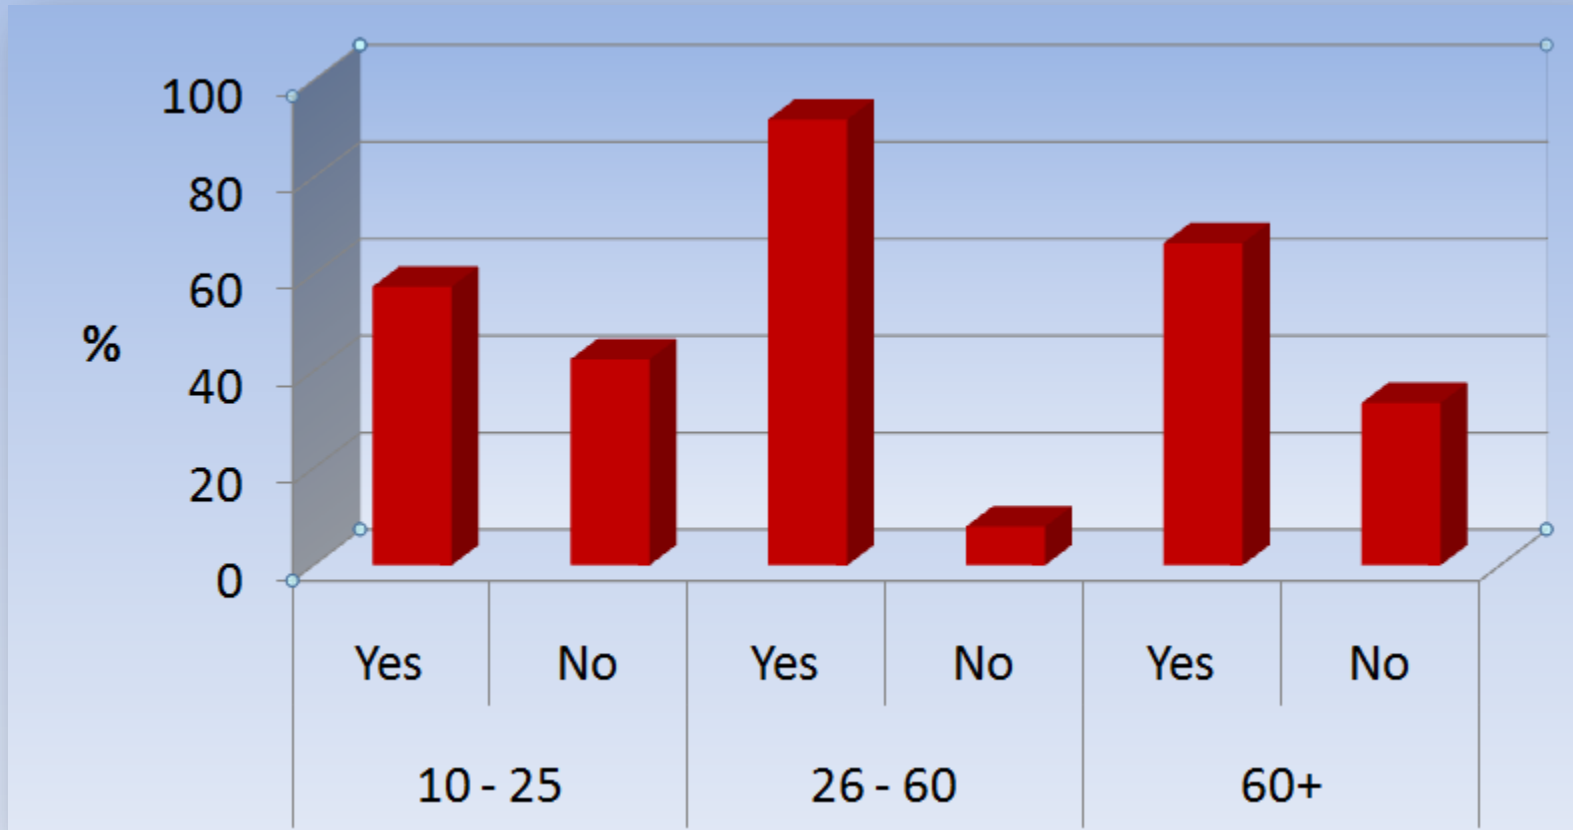

- **most of the people are well-informed about ecology**

- **most of the people are eco-friendly to the environment**

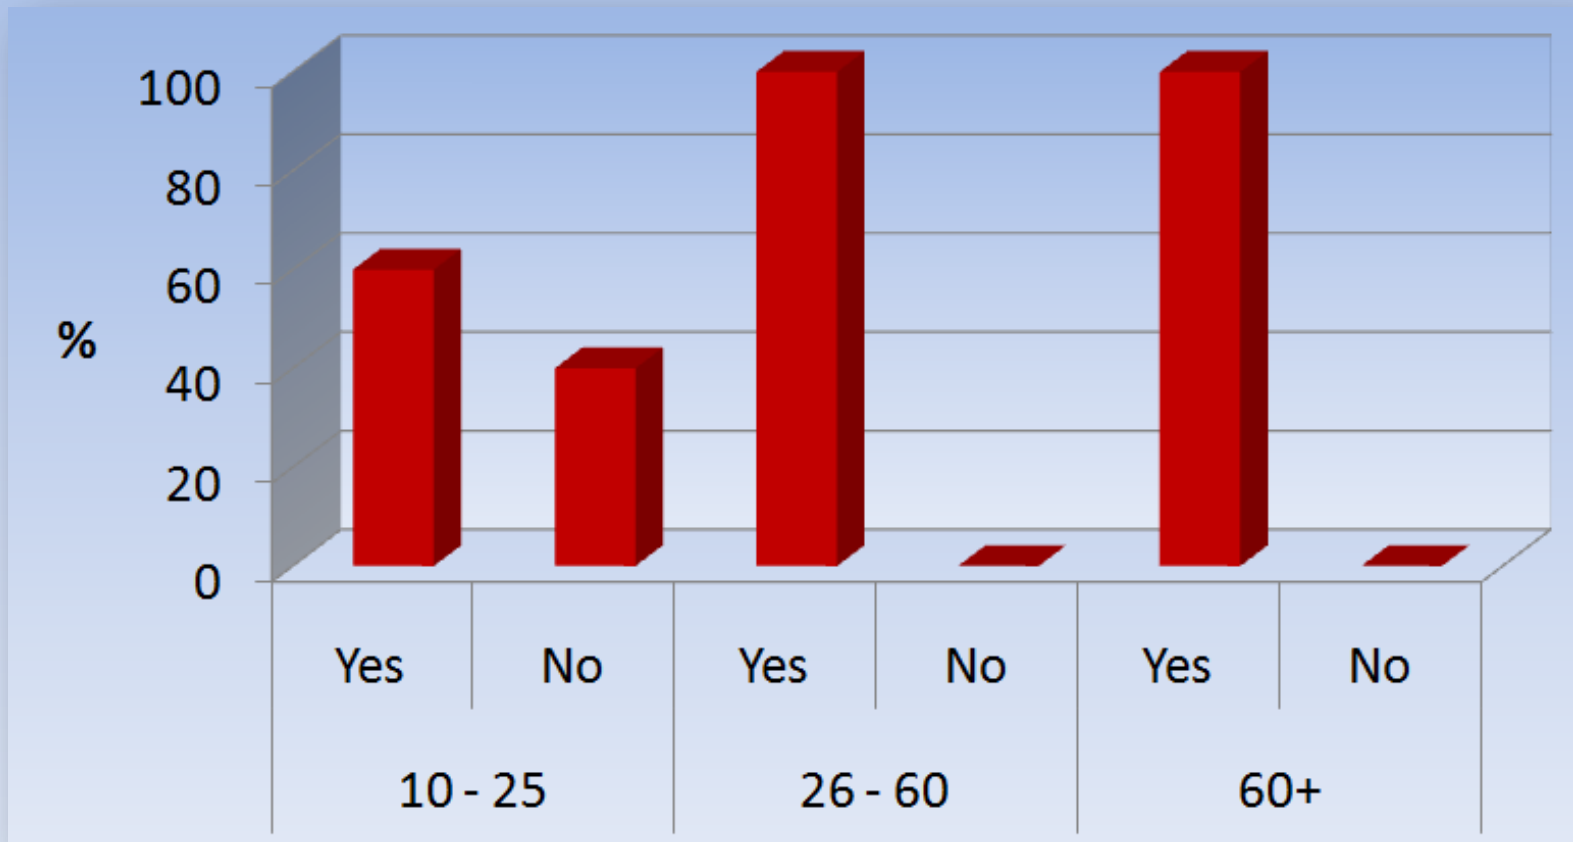

- **the best ecological behaviour:**

- middle-aged people (26-60) 79.5%
- elder people (over 60) 70 %
- teenagers and young people 68.5%

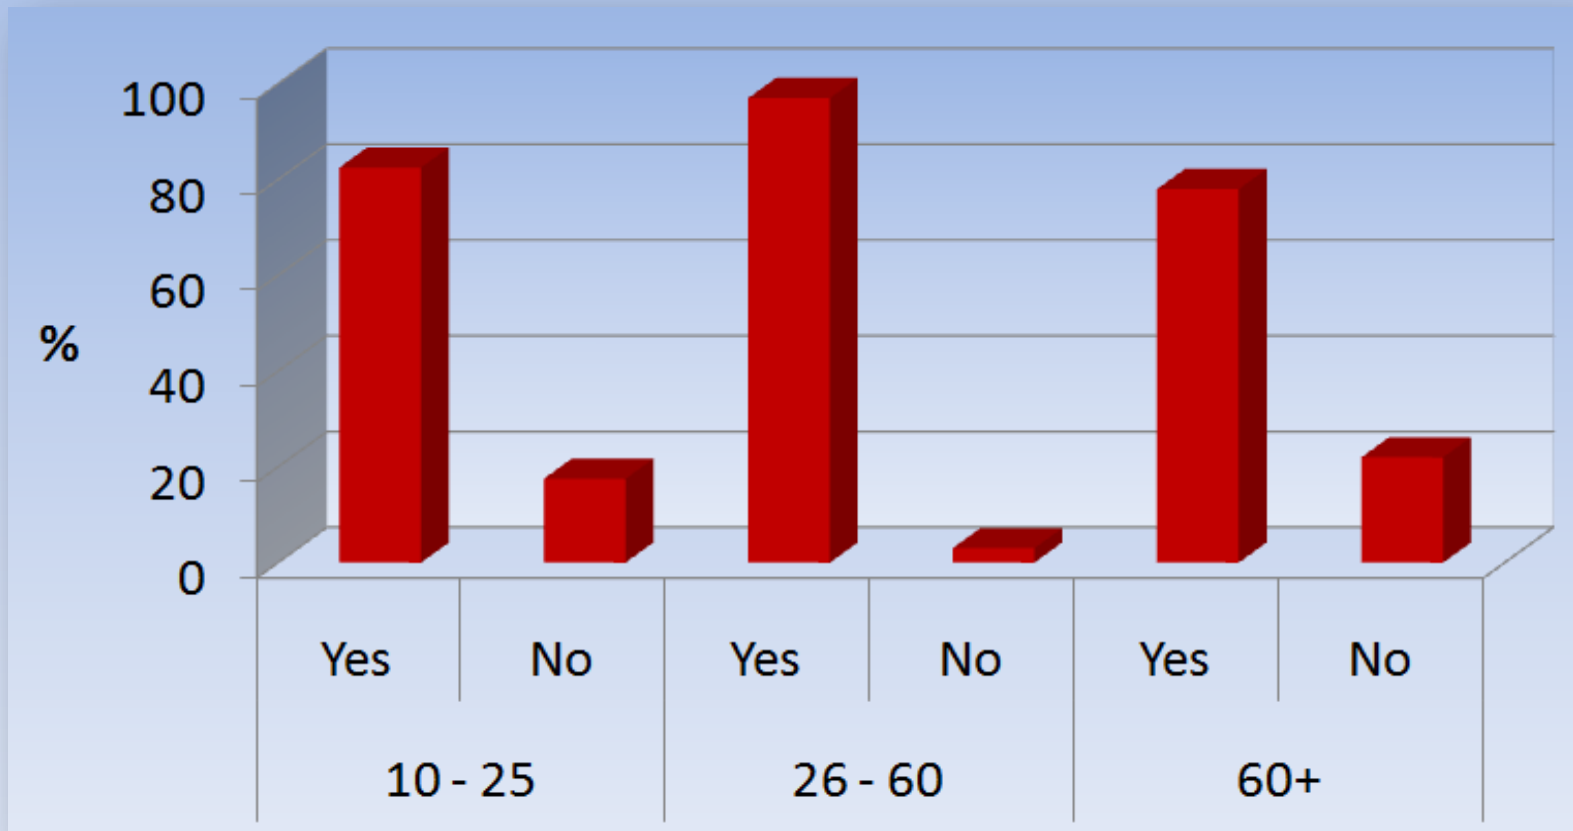

# Do you care what happens to your rubbish?

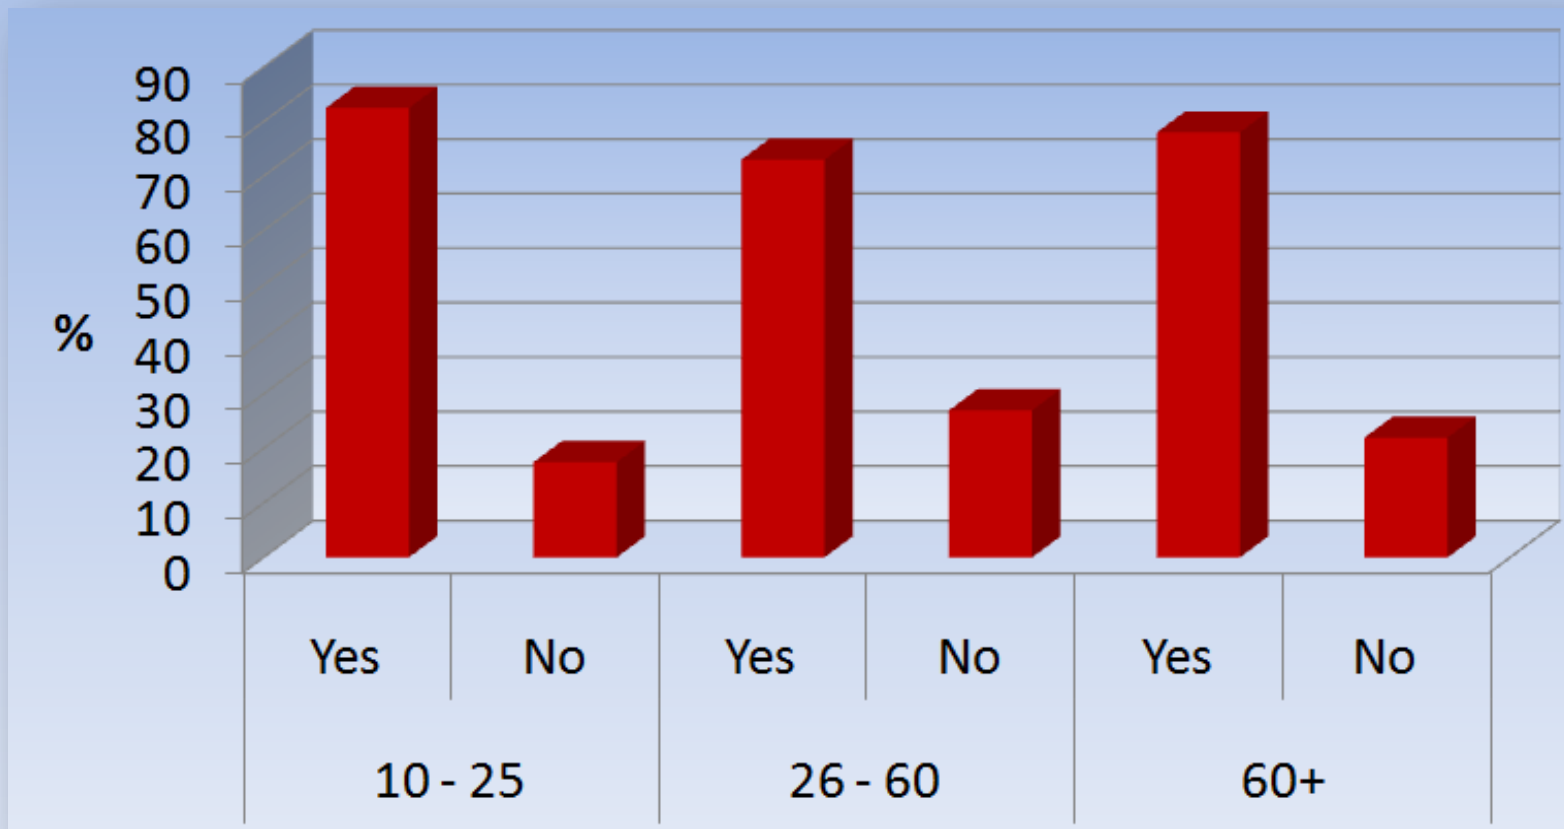

# Do you return bottles, tins/cans to the shop and get money back?

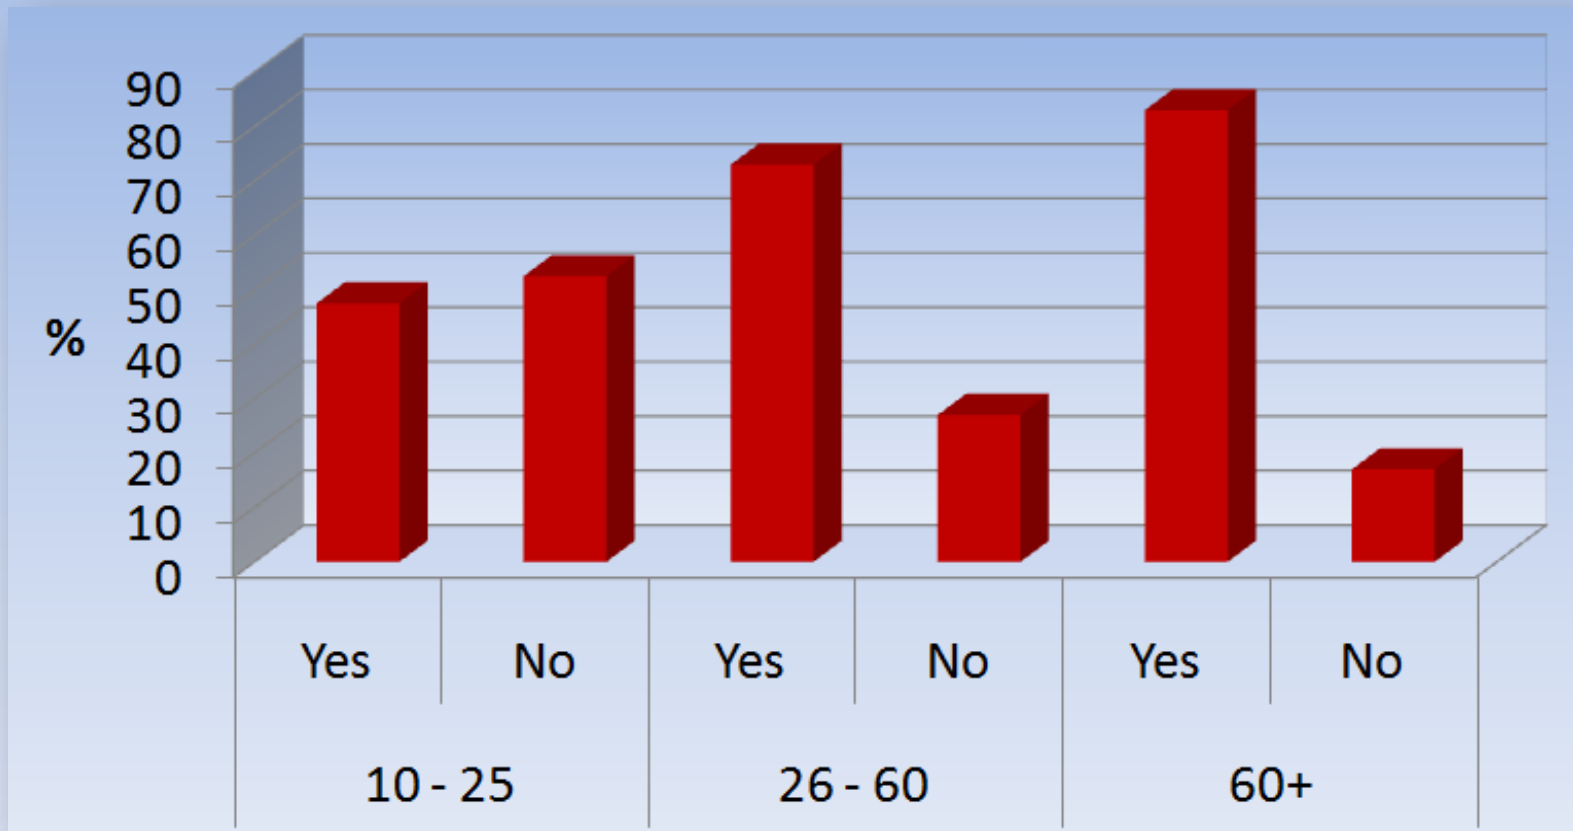

# Do you separate your household rubbish?

# Do you drink tap water?

# Do you take shopping bags to the supermarket?

# The source of information
