# Comenius Project Nuclear Energy

- The excursion of 15 students to the technological centre of Skoda Works in Pilsen – May 2011.
- A special exibition Nuclear Days.
- The students could watch the model of nuclear reactor and nuclear rods.
- They were informed about safe disposal and isolation of used nuclear fuel from reactors.
- They were discussing biological effects of radiation.

## Students made the presentations about nuclear energy.

#### Dukowany:

- ČR
- Provozovatel: ČEZ
- Čtyři reaktory. Všechny jsou v provozu.

#### <u> 1022/A</u>

- Španělsko
- Provozovatel: Association Nuclear Asco
- Dva reaktory v provozu.
   První postaven 1974,
   druhý o rok později.

## RADIOACTIVITY

Karel Kubíček

## What is radioactivity?

- Radioactivity is a physical effect
- Radioactivity is dangerous for people
- Different types and intensity of radiation
- Carcinogenic

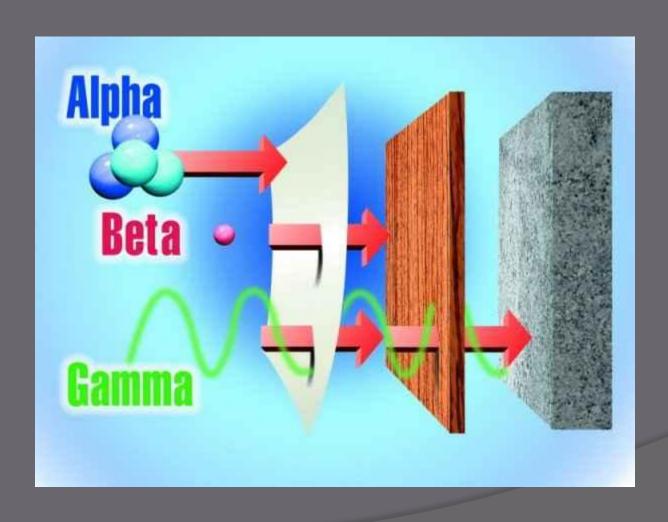

## Types of radiation

 Radiation alfa – the biggest particle

Radiation beta – big particle

 Radiation gama – the most danegrous, small particle

## Types of radiation

## Use of radioactivity

- Medicine
- Food
- Paleolontology
- Nuclear power plants
- Nuclear weapons

# Nuclear power plants in the Czech Republic

### <u>Temelín</u>

- two blocks
- Reactor VVER 440V 213

### **Dukovany**

- four blocks
- Reactor VVER 1000

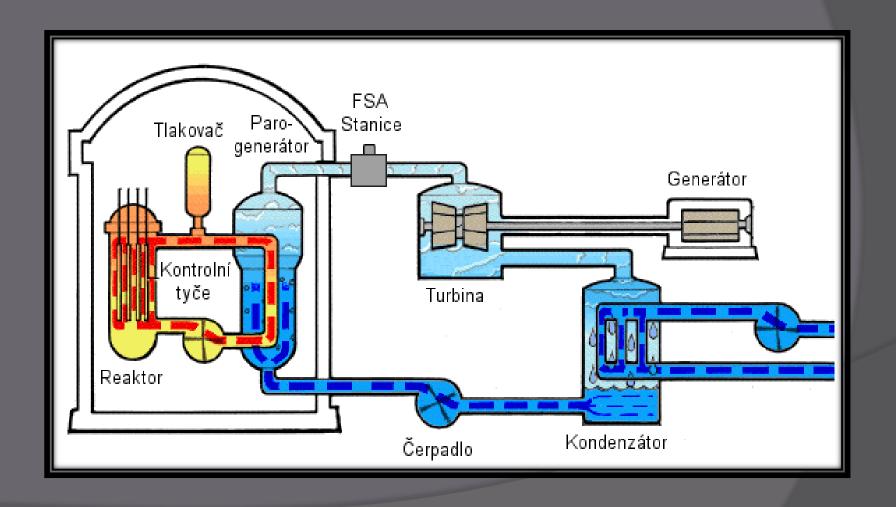

## Types of nuclear power plants

- Two types: Single-circle
  - Dual-circle

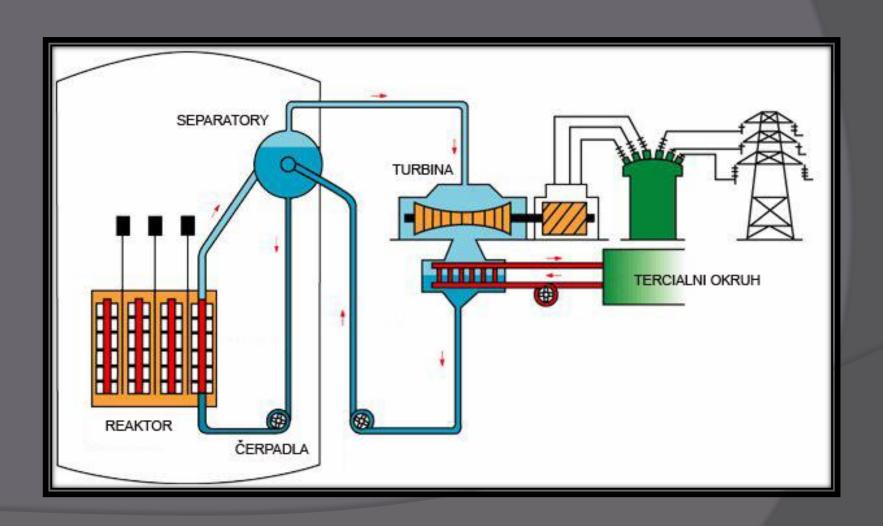

Single-circle - only one circle

Dual-circle - primary circle and secundary circle with steam generator.

### Dual-circle nuclear reactor

## Single-circle nuclear reactor

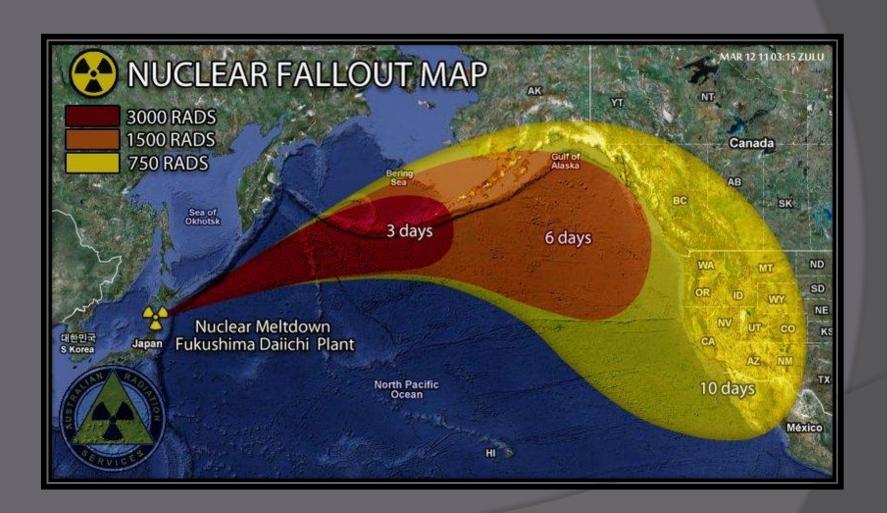

## Chernobyl

- Nuclear catastrophe 26. April 1986 1:24 am
- Nuclear accident experiment

## Fukušima

### Nuclear weapons

- Atomic bombUsed in Hiroshima
- Tzar bomb
